THE CHALLENGE

Manual quoting can't keep up with WhatsApp

Travel agents live on WhatsApp today — but replying to every rate request by hand doesn't scale, especially during peak season.

Slow response times

Agents juggle dozens of chats at once — genuine rate requests wait hours for a reply, or get missed in the noise.

Missed after-hours leads

A customer messaging at 11pm asking "Goa rates" gets silence until the next morning — and often books elsewhere.

Inconsistent, error-prone quotes

Manually re-typing pricing and itineraries from a master sheet invites typos and outdated rates.

Staff burnout in peak season

Repetitive "share the rates" conversations eat up hours your team could spend closing bookings.

THE SOLUTION

Meet your AI quote assistant on WhatsApp

The customer just types like they always have — "Goa Rates", or the whole trip in one message — and gets a complete, accurate quotation back automatically, no agent required.

01

Understands real language

Handles "Share Goa", "Goa Rates", bare "Goa", or a full one-line request with dates and pax — however the customer actually types.

02

Searches live quotations

Matches the request against ClickParamount's always-current quotation sheet — destination, dates, passengers, and days.

03

Replies in seconds, on WhatsApp

Sends a clean, formatted quote straight back in the same chat — itinerary and hotel details available on request.

HOW IT WORKS

From "Goa Rates" to a quote — in one chat

Customer messages

"Goa Rates" or a full one-line trip request lands on the WhatsApp Business number.

AI reads the request

Extracts destination, travel date, passengers, and trip length — and asks only for what's missing.

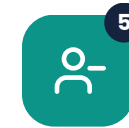

Searches quotations

Matches against the live, always-synced ClickParamount quotation database.

Sends the quote

A formatted quotation — route, cost, inclusions — lands back in the same WhatsApp chat.

Follow-up or handoff

Itinerary, hotel details, more prices — or "Yes, Transfer" to a human, any time.

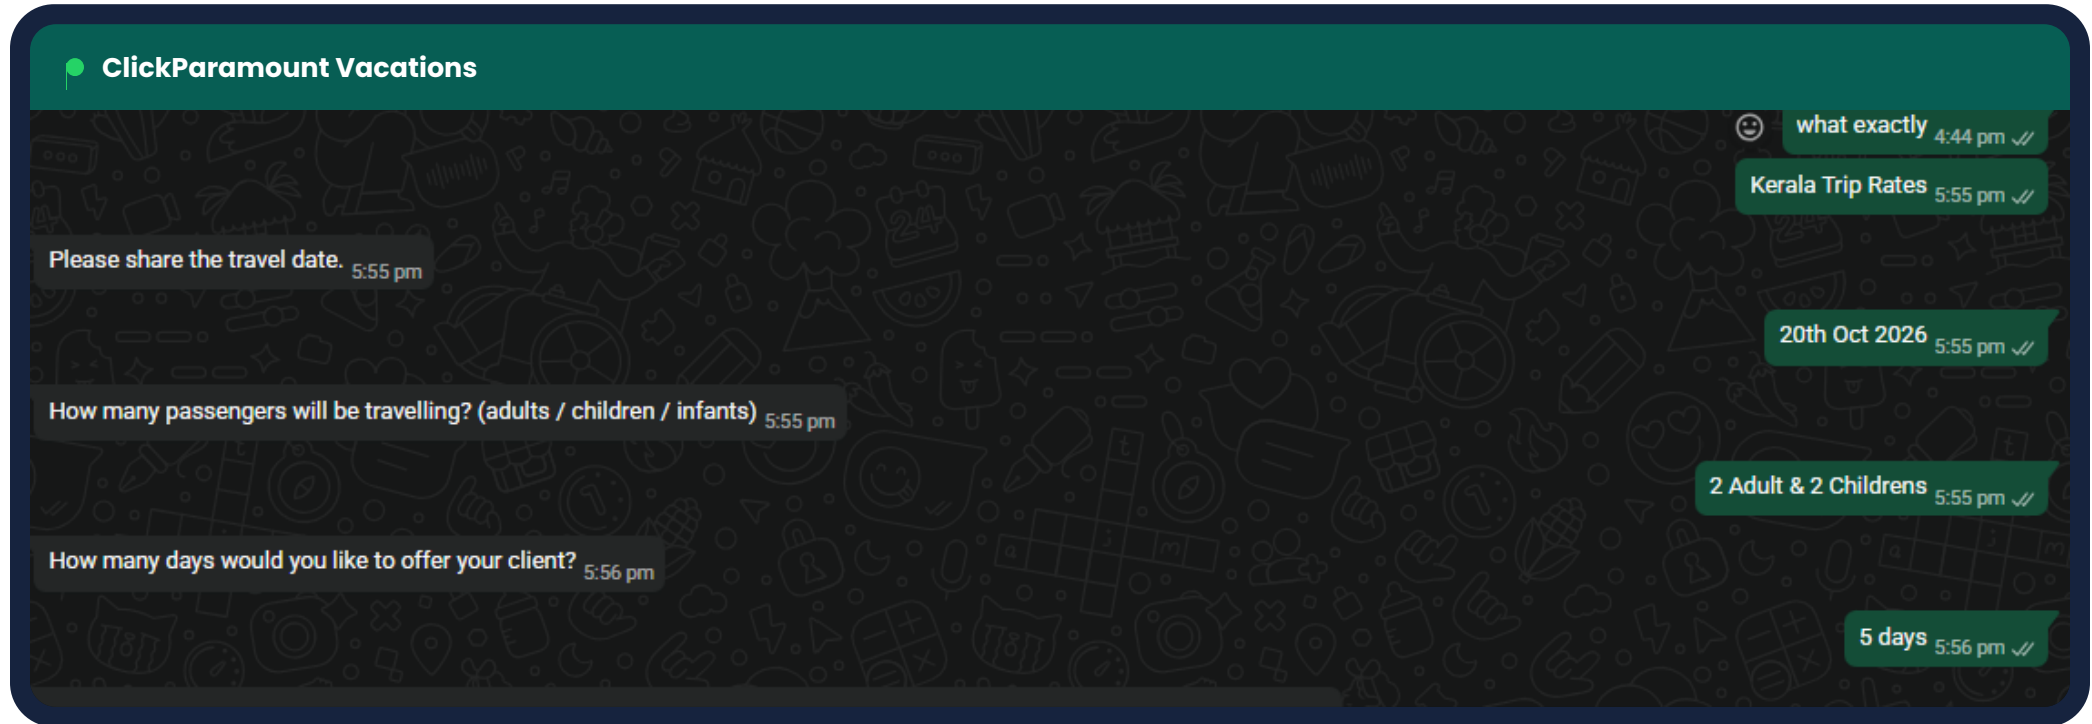

The customer never leaves WhatsApp, and never waits on a human — unless they explicitly ask for one with **"Yes, Transfer"**.

SEE IT IN ACTION

The AI asks only what it still needs to know

Follows up naturally, no re-asking the destination

Shows the expected format in every question

Remembers context across the whole chat

FREQUENTLY ASKED QUESTIONS

InstaQuote AI par aksar poochhe jaane wale sawaal

1 Yeh ClickParamount ka InstaQuote on WhatsApp kya hai?

Yeh ek service hai jo humne WhatsApp par start ki hai, jisme aap apne kisi bhi number se, kisi bhi time apni travel requirement bhej sakte hain, aur hamara system aapko quotation directly WhatsApp par share karega.

2 Kya mujhe exact quotation milega? Jaise meri requirement Goa | 3 Nights | 10th December | 4-Star Hotel ki hai?

Agar hamare portal par same query pehle se bani hui hai, toh aapko exact quotation mil jayega. Agar exact query available nahi hai, toh system aapko near-match quotation share karega. Jaise system mein Goa ke liye 3 Nights ki quotation 7th December ki available hai, toh system aapko wahi quotation 7th December ki travel date ke saath share karega. Exact requirement ke liye aap chat hamari sales team ko transfer kar sakte hain.

3 Kya WhatsApp par chat karne ke liye mera CP Portal par account hona zaroori hai?

Nahi. Aapka CP Portal par account nahi bhi hoga, toh bhi chatbot aapko reply karega, kyunki bot aapko system mein already stored quotations share karta hai.

4 Kya main isme amendment jaise hotel change, vehicle change, etc. kar sakta hoon?

Nahi. Kisi bhi amendment ke liye aapko hamari sales team se baat karni padegi. Woh aapki requirement ke according new quotation bana kar share karenge.
